SmartCode: smartcode-three.vercel.app

PROFESSIONAL SUMMARY

• Full-Stack Developer and BCA student with expertise in MERN Stack, Next.js, and TypeScript. Built production-ready applications including an AI-powered competitive coding platform. Solved 100+ coding problems and passionate about scalable software engineering.

TECHNICAL SKILLS

- Languages: C++, JavaScript, TypeScript, Java, Python, C
- Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- Backend: Node.js, Express.js, REST APIs
- Database: MongoDB
- Tools: Git, GitHub, Judge0 API, Vercel

FEATURED PROJECT – SMARTCODE

- Independently built SmartCode, a production-ready coding platform using Next.js, React, TypeScript, Node.js, Express.js, and MongoDB.
- Implemented real-time 1v1 coding battles to simulate competitive programming environments.
- Integrated an AI mentor chatbot providing logical hints without exposing complete solutions.
- Enabled live code execution via Judge0 API supporting JavaScript, TypeScript, Python, and Java.
- Designed authentication, submission tracking, battle workflows, and responsive interfaces.
- Deployed and maintained the platform end-to-end for public users.

OTHER PROJECTS

- TransX: Developed a responsive payment gateway supporting multiple payment methods and transaction workflows.
- EVS Project: Built an environmental awareness platform encouraging community engagement and sustainable practices.

ACHIEVEMENTS & CERTIFICATIONS

- Solved 100+ coding problems across coding platforms.
- Fundamentals of C (Udemy)
- Responsive Web Design (freeCodeCamp)
- Problem Solving (HackerRank)

EDUCATION

- Bachelor of Computer Applications (BCA), Lovely Professional University (2023–2026) | CGPA: 7.29
